A ORDINANCE

To license exhibitions of skating given in the city of Fort Wayne.

Sec 1. It is ordained by the common council of the city of Fort Wayne that any person giving an exhibition of skating in any room, building, pavilion or enclosure, at which any charge shall be directly or indirectly exacted, shall first obtain from said city a license to do so for the sum of one thousand twenty-five dollars and fees, and for a less period than one year five dollars per month and fees:

Sec 2. Any person violating any provision of this ordinance shall be convicted of a felony and shall be fined a sum of money not less than one dollar nor more than one hundred dollars.

Sec 3. This ordinance shall be in force and take effect from and after its due publication, done at the council chamber of said city this 23rd day of December 1884.

BLOODY RIOT.

Seven Hundred Poles, in the Plow Works at South Bend Crazed by Socialistic Speeches,

Strike for Employment and Higher Wages and Emphasize Their Demands by Riot and Murder.

Several Men Fatally and Large Number Brutally Beaten--The Riot Still is Active Progress.

Not at South Bend.

CHICAGO, Jan. 13.—A report reaches here that a strike is in progress at the Oliver Chilled Plow works, at South Bend, in which nearly 800 men are engaged. A riot is said to have occurred this morning and six men were killed. The militia have been called out. Telegrams sent out from there bring no details thus far.

A gentleman here comes out with some facts about the trouble among the employees at Oliver's chilled plow works at South Bend. He says the company employed about 1,000 men, nearly all of whom are Poles. Shortly after the national election the works shut down, resuming at the end of three weeks, when only one half of the force were given work, and a reduction in the wages of those men was ordered. Ever since threats have been made by the unemployed men against the works, and also against the workmen employed. Some of the Chicago socialistic leaders have been addressing meetings of the unemployed men in which it is said they were encouraged to make the attack which occurred this morning.

A Break for Liberty.

WAUTONNA, Wis., January 12.—Sunday night, four inmates of the state prison, Michael Hogan, Thomas Deedy, William Burns, and Richard Page, effected their escape from the institution. But little start was gained by them before their absence was discovered. Page was first to be recaptured, a farmer nabbing him just as he was about to take a horse from the farmer's barn. He refused to speak regarding the whereabouts of the others, but early this morning the three were found in the hay in the barn on the prison grounds, where they had secreted themselves the moment of clearing the prison yard wall.

Bills introduced and referred:

By Mr. Rosencranz—For the establishment of a branch soldiers home in California.

By Mr. Holman—Appropriating \$75,000 for the erection of a public building at Madison, Indiana.

By Mr. Browne, of Indiana—Referring to the present controversy between the United States and Venezuela, in regard to award at Carcas in 1868.

By Mr. Bontelle—To settle claims of any state for expenses incurred in the defense of the United States.

By Mr. Comas—Tendering the thanks of congress to Commanders Schley and Codd and Emery, and the officers and men they commanded, for the rescue of Lieutenant Greeley and his surviving comrades.

By Mr. Fielder—Levying a duty of fifty per cent. ad valorem on pearl buttons.

By Mr. George—Authorizing the transfer of one vessel of the Greeley relief expedition to the treasury department for a revenue cutter, and retention of the other two for use in the navy.

Mr. Rogers of New York, also to provide for better protection of the northern and northwestern frontier and to facilitate commerce and to diminish the expenses of exchange between states.

It authorizes the secretary of the treasury to issue to the comptroller of the state of New York, on the credit of United States coupons or registered bonds \$18,000,000, redeemable after ten years and payable at the end of the fifth year, and bearing interest at three per cent.; also, provided, that before delivery, the said bonds the legislature of New York shall have given a pledge for the state to commence without delay the enlargement of aqueducts and one tier of locks of the Erie and Oswego canals, to a sufficient capacity to pass vessels of war, twenty-five feet in width and 100 feet in length, and merchant vessels of 600 tons burden propelled by steam. All vessels of the United States, all munitions of war or stores or supplies for the use of the general government shall be allowed to pass through the canals free of charge. The work shall be done under the supervision of engineers of the United States, to report once every three months. The secretary of the treasury shall issue bonds in an amount sufficient to have the work done properly.

Mr. McAdoo's resolution, calling upon the postmaster general for his opinion as to whether the eight-hour law applies to letter carriers.

The house then proceeded upon the consideration of the business relating to the District of Columbia.

A bill was passed authorizing the judge of the superior court of the District of Columbia to appoint competent lawyer to prepare a criminal code for the district. Several other bills of local interest were passed. This completed the district bills and the house went into a committee of the whole on the consular and diplomatic appropriation bill.

Mr. Pitt moved to restore to the

\$3,500 class the consulship at Hon

Kow, China, which in the bill has been placed in the \$1,500 class. In advocacy of this amendment Ryan called

local authorities able to cope with the situation as he is at present advised of it.

At the Old Trick.

MADRID, Jan. 13.—Alabama was visited again yesterday by a severe earthquake shock just as King Alphonse and wife were leaving the city. No damage was caused but the shock was felt as far as Algarro, where the people are panic-stricken. A serious calamity occurred at Nerja.

An encampment of refugees in the outskirts of the town burned, and the unfortunate people who were thus made shelterless were exposed to a heavy snow storm, which prevailed throughout Granada.

Why General Grant Refused Aid.

NEW YORK, January 12.—The following statement made by a friend of General Grant, makes clear the action taken to protect the general, and why the movement for raising a fund was stopped. Two or three weeks ago, while there appeared to be danger of a sheriff's sale of General Grant's official commissions, swords, medals, souvenirs from foreign countries and other precious personal effects, fearing this, and with what appeared to be sure evidence before them, that the danger of such sale was imminent, some of General Grant's friends resolved to protect these historic and treasured objects and also his other personal effects by buying them at their appraised valuation, or at a sale, and if an opportunity afforded it they would have furnished money for that purpose. In looking into the legal points of the case it was found that the contemplated sale was a friendly action on the part of Mr. Vanderbilt to obtain free from any further lien, and after acquiring possession to preserve such personal effects and souvenirs for General Grant. In view of these facts and of a letter of General Grant to Cyrus W. Field, further action in the matter was dropped. The generosity of Vanderbilt just made known, preserved to General Grant and the American people the treasured objects it was the purpose of his other friends to protect.

ASIDE

from the intense pain caused by Rheumatism and Neuralgia, they are very dangerous diseases frequently causing death. It's strange that until lately medical science has been unable to discover a remedy that is safe in its action. There are many cures for these diseases, but before they were discovered, but so dangerous are they, that unless carefully administered, they are more deadly than the disease. It is because

ATHLO- A PHOROS

is absolutely harmless and certain to cure, that it has achieved its wonderful success.

Mr. M. M. Tilton, Chicago, Ill., writes: "Have witnessed marvelous effects produced by ATHLOPHOROS, particularly in one severe case of Rheumatism. It is years standing, and the patient after taking two bottles was entirely relieved from ailment. Have used it in my own family with entire success."

Gro. A. Grindale, 3d & Walnut Sts., Des Moines, Ia., writes:

"Athlophoros has astonished me with its wonderful power. I have taken two bottles for lameness in my right leg, and am now the best investment I ever made. I am now after one week fit able to attend to my business and am entirely free from pain swelling."

If you cannot get ATHLOPHOROS of your druggist, we will send express paid, on receipt of regular price—one dollar per bottle. We prefer that you get it from your druggist, but the houses do not furnish it, try something else, but order at once from us, as directed.

The formula by which Mishler's Herb Bitters is compounded is over two hundred years old, and of German origin. The entire range of proprietary medicines cannot produce a preparation that enjoys so high a reputation in the community where it is made as

MISHLER'S HERB BITTERS.

It is the best remedy for Kidney and Liver Complaints, Dyspepsia, Cramp in the Stomach, Indigestion, Malaria, Periodical Complaints, etc. As a Blood Purifier, it has no equal. It tones the system, strengthening, invigorating and giving new life.

The late Judge Hayes of Lancaster Co., Pa., an able jurist and an honored citizen, often wrote, "Mishler's Herb Bitters is widely known, and has acquired a great reputation for medicinal and curative properties. I have used myself and in many a family several bottles, and I am satisfied that the reputation is not unmerited."

OFFICIAL PAPER COUNTY AND CITY.

DONALD smiles when he reads in the papers that Brother Blaine was defeated for lack of funds.

The Second Adventists have a lot of ascension robes on hand that they would dispose of at a bargain.

An Omaha paper contributes another to the St. John matter that will probably bring John B. Finch to the front. He is said to be possessed of some interesting facts.

There are thirty-eight bills for public buildings aggregating an appropriation of \$62,322,000, which have been reported to the house of the present congress, and which are now pending.

It appears now that Ben Butler is not going to write a book, as was previously stated. Ben fears, it is said, that he will not have time to write the book and practice for his next presidential contortion act.

MR. BLAINE defines the mugwumps as "educated hogs." Mr. Blaine seems to consider the difference between the mugwumps and the rest of the republicans as a mere matter of education.

LEGISLATION in congress is apparently at a standstill. There is much talk but little work done. About three hundred bills which have passed the senate remain in the house without consideration.

THE Marquis de Léville has sued the New York World for libel because that paper expressed a doubt at the legitimacy of the noble foreigner's title. It is to be hoped that his nibs will recover a sufficient sum to start a barber shop.

W. H. VANDERKILL made a very generous offer to convert the proceeds of General Grant's property into a trust fund for Mrs. Grant. The general accepted the offer, but Mrs. Grant vetoed the acceptance and declined with thanks.

THE Hon. John M. Palmer, of Illinois, says that in case he doesn't get the United States senatorship, he will still be proud and happy in being vice president of the Southdown Sheep association and a delegate to the coming hog convention at Chicago.

MR. EVARTS' income is estimated at \$100,000 per annum, and that of the Hon. Levi P. Morton at between \$40,000 and \$60,000. Mr. Morton is therefore five or six times richer than Mr. Evarts, but Mr. Evarts far surpassed him in the possession of glory.

The telegraph tells that Dr. Carver, the sharpshooter, yesterday at New Haven, broke a quarter of a ton of coal, piece by piece, at a half-practice shot. Now, if the doctor could utilize his rifle or shotgun to cut up a cord or two of wood, we might hail the sharpshooter as a practical addition to the household.

THE excitement caused last week by the apprehension that one of the members of the Illinois legislature was about to die with consumption suggests that it might be well to enact a law that no man be allowed to run for office unless he can present a clean bill of health, or at least show that he has not contracted any incurable and deadly malady. Political complications resulting from the election of confirmed invalids ought to be preventable.

THE decision of the United States district court—Judge Blodgett—to sustain the indictments found against the Chicago ballot-box stuffers will give general satisfaction to the country. The fraud was committed at a congressional election, and the United States election law should cover it or else it should be repealed. The Chicago fraud furnishes an opportunity to test the validity and efficiency of the United States law, which should stand or fall by the case in hand.

We have fallen upon worse times than these and have recovered from them. What is now wanted are confidence and courage. The future is full of big things for us. There is plenty of money, plenty of food, and we feel satisfied that there will be plenty of work before sixty days have passed. While there are now some suspensions of operations, there are many more resumptions. Wages will decline somewhat but all the necessities of life will have to follow suite. Therefore things will really be no worse than they were a year ago, when we considered ourselves in a highly prosperous condition.

The new governor's initial utterance is commendable in a dual way—in its clearness and perspicuity. It directs attention to nature's beauty, and man's maladministration thereof in the accumulation of colossal fortunes which foreshadow combinations of power and shapes legislation in the interests of capital and against the industrial classes. The advice tendered by the governor on this subject is sound to the core. He urges that the members cease the business of flooding the legislature with an ocean of bills and holds that it is far better to have too little rather than too much law, and that old laws, familiar to the people, should not be changed only for reasons that are cogent and unquestionable. He touches with spirit and point yet tersely upon all matters of state interest. It is the ablest and grittiest document ever presented by an incoming governor of this state, and has the ring of true grit which has always characterized the man and which assures a safe and beneficial legislation upon his part.

Is your system running down? Is there a feeling of despondency taking possession of you? Are the functions of your digestive and urinary organs impaired? Is your blood bad? Do sores and pimples trouble you? Do you suffer from aches and pains? Are you weak and does the least exertion give you fatigue? Beware! Begin perfect health by using Dr. Guyott's Yellow Dock and Sarsaparilla.

General Fremont, gray as he is, again becomes a "pathfinder." He is to head a large party to survey a tract of 18,000,000 acres in Mexico, bought by large capitalists.

Every day adds to the great amount of evidence to the curative powers of Hood's Sarsaparilla. Letters are continually being received from all sections of the country, telling of benefits derived from this great medicine. It is unequalled for general debility, and as a blood purifier, expelling every trace of scrofula or other impurity. Now is the time to take it. Made by C. I. Hood & Co., Lowell, Mass. Sold by all druggists.

Miss Susan B. Anthony will remain in Washington until after the meeting of the Women's Rights association on January 20, after which she sails for Europe.

Children seem especially prone to complaints of the bowels. A seven-year-old boy of Mrs. Harriet Orr, of Lancaster, Pa., was troubled in that way, and a neighbor advised her to use Mishler's Herb Bitters. She gave him a tablespoonful every time his bowels were moved. The pain was soon checked, and in a short time the little fellow was enjoying good health.

James Artis, the cook, who climbed Constable McCann's collar, was fined by Justice Ryan. His wife was let go.

Conductor Robinson, of the Fort Wayne, Cincinnati and Louisville road, is suffering from an attack of typhoid fever.

Home Lodge, F. & A. M., meets to-night to confer the third degree on Charles Weaver, the popular Wabash engineer.

There was a very interesting meeting of the Chautauqua circle last night at the residence of Mrs. Hosmer, on South Harrison street.

A. A. Talmage, general manager of the Wabash, went through the city yesterday on a special. He was on his way from New York to St. Louis.

Governor Gray will be petitioned to pardon Buell Webster, who is now doing a life sentence in the prison north for the murder of the Bolet family.

Conductor George Mogford, one of the cleverest men in the service of the Lake Shore road, is again punching the paste boards, having recovered from a severe illness.

The Terre Haute Express suggests an inter-state base ball league between Ohio and Indiana, and counts upon Fort Wayne as being among the Hoosier representatives.

Myer Brothers & Co., have constructed four rooms and handsomely furnished them in the rear of the store, for the use of the physicians who make their headquarters there.

Scott Swan and Arthur Dodge will sell the Turner heater on the road. This patent is made at the Bass foundry and machine works and several Fort Wayne people are interested in it.

The Lafayette Courier says: "Albert Salinger, of Fort Wayne, who is visiting his parents in this city, was taken seriously ill with congestion of the stomach but is some better to-day."

Miss Etha Henderson, of No. 40-Madison street, yesterday reached her seventeenth birthday and in the evening was surprised by a large party of her young friends. The occasion was a very merry one.

Train agents, who are practically spotters upon the conductors running on the Wabash road, have not effected a marked increase in cash receipts, and it is believed that the unnecessary expense will be cut off February 1.

A correspondent writes a member of THE SENTINEL staff to ask what charitable disposition was made of the proceeds of a recent entertainment at the Temple opera house. The management of the entertainment could give best the desired information in all probability.

Edith Burham and Louis Chappo settled their hasty suit yesterday by getting married. Justice Hays made the young people one, smacked the experienced lips of the bride and sent them out into the world with his blessing. Chappo says he will not live with the girl, but the law compels him to support her.

To-morrow (Wednesday) evening at the superior court room Charles H. Nix, of Chicago, and George Mayer, of this city, will meet with citizens interested in the project of the erection of a fine hotel in this city and they will there fully explain the details of the plan proposed. A large attendance will greatly facilitate the enterprise.

Quite a number of members of the Jeffersonian club met at the residence of Mr. S. C. Lumbard last evening and pleasantly discussed two topics. The first was to pay the debt of the old club, and at once \$116 were subscribed for the purpose by the gentlemen present.

It was also decided to continue the organization of the Jeffersonian club and a general meeting of the club will be held next Monday evening.

A morning newspaper announced Saturday that William Hale, of Pleasant township, while chopping wood cut his hand off at the wrist with an ax. The same day an evening contemporary announced that the hand was so badly injured that Dr. Younge was forced to amputate it. To-day Mr. Hale was in town with a slight cut on his left hand already about healed. This is newspaper enterprise with a vengeance.

THE SKATING CRAZE.

Meese, Foote and O'Connor purchase Property to put up a Skating Academy to be arranged for Rollers.

Meese, W. A. Foote and Barney O'Connor will build a skating rink at the southeast corner of Fulton and Main streets, on property purchased this morning from Hon. A. P. Edgerton for \$2,700. The gentlemen bid on Dick Meyer's lot on West Wayne street, Lou Bourie's lot on East Wayne street, and offered \$7,000 for the Academy property but none were accepted. They then purchased the Edgerton property where Lou Neely conducted a rink formerly. The building will be 100 by 150 feet, have a ladies' cloak and waiting room, a gentlemen's waiting room and a seating capacity about the hall for 500 spectators. W. A. Foote went to Chicago to-day to have plans for the building prepared.

Last night George A. Dickson, lessee of the Academy came here and decided to convert the Academy into a skating rink, when not occupied by shows. The floor will be movable and C. B. Woodworth and Bob Smith will manage the place.

Already there are two skating rinks in the town and the rage increases,

OUR SOLONS AT WORK.

Fort Wayne Representatives Begin Their Legislative Work Well—The Committee and Other Local Guests.

The representatives of Allen county in the legislature begin their work in the right way.

The bill of Representative Brooks, increasing the state treasurer's bond to \$10,000,000, and providing that his sureties shall be worth twice that amount, looks like a move in the right direction.

Under the provisions of a bill introduced by Representative Hayden, circuit judges of counties having 54,000 inhabitants and which have no criminal would receive \$2,000 per annum. The present salary is \$2,500.

Representative Hayden made it known that Fort Wayne strenuously objects to being controlled by a metropolitan police force, and the proposition to amend the law so as to include this city and Terre Haute and Lafayette is said to have been abandoned. However, there is a strong sentiment in favor of applying the provisions of the law to all cities in the state of 10,000 or more inhabitants.

Speaker Jewett, of the house, announced the standing committee yesterday and our representatives were not overlooked. Representative McHenry is chairman of the committee on education, third on the committee on printing and fifth on the committee on public expenditures.

Mr. Brooks is second on the committee on claims, chairman of the committee on state library and second on the committee on benevolent and scientific institutions.

Mr. Hayden is fifth on the committee on corporations, third on the committee on cities and towns, and chairman of the committee on roads.

Mr. Haydon introduced a bill to amend sections 7 and 9 of the act in relation to the laying out, opening and widening and improving of streets, alleys, highways, and water courses; providing for the appointment of commissioners, assessing the benefits and damages, providing for the collection of assessments and damages, and prescribing the duties of officers in relation thereto, approved March 1, 1861, being section 3173 and section 3175 of the revised statutes of 1861.

Mr. McHenry put in a bill to amend the act providing for a general system of common schools, approved March 6, 1865, being section 2224 of the revised statutes of 1861.

George Feltz, of this county, is an assistant to Clerk Darnell, of the house of representatives.

SWINDLING THE FARMERS.

Well Dressed Villains Making their Unseen Rounds in Allen County to the Surprise of Farmers Who Don't Read the Papers.

A well dressed man for a week or more has been going through Wayne and Pleasant townships taking orders for a new species of oats which he claims by the name of "Bohemian." He selects his victim, generally a farmer who don't read the newspapers, and says to him: "We have a Bohemian oat association and by buying ten or twenty bushels, at \$10 a bushel you may become a member and we will help you sell your crop the next year at the same price, charging you 25 per cent. commission. We will not ask you to pay for them until you sell your first crop, but must have your note to turn into the secretary of the company."

If the farmer consents, a few days later another man delivers the oats and takes the victim's note. A few days later the farmer finds that the note has been sold to unscrupulous parties and the agent of the "Bohemian Oat association" never turns up again.

The oats are said to be as great a fraud as are the agents, producing only about half crop of worthless grain, known as the hullless oats. Several farmers of Pleasant township and one in Wayne township have already been victimized in various amounts. Others should be on their guard and treat the rascals to a diet of cold lead or else depurize the watch dog to receive them.

A morning newspaper announced Saturday that William Hale, of Pleasant township, while chopping wood cut his hand off at the wrist with an ax. The same day an evening contemporary announced that the hand was so badly injured that Dr. Younge was forced to amputate it. To-day Mr. Hale was in town with a slight cut on his left hand already about healed. This is newspaper enterprise with a vengeance.

the house, it was pretty clearly established that the charred body was his remains.

The supposition is that he in his derangement had gone to the stable to end his troubles, and that he had set fire to the straw in the building, in the hopes that all traces would be wiped out by the fire.

Mr. Thorpe was a former resident of this city and his father, William Thorpe, long operated a brick kiln near the old Edsall homestead, east of town. Later he ran a saw mill just west of the city.

STOPPED A TRAIN.

Discharged Pittsburgh Brakemen Pull the Pin out of No. 73 and Threaten to Stop Business.

All morning it was whispered that the Pittsburgh brakemen would play a big card before night. So they did, and according to a little arrangement of their own a dozen men boarded west bound freight train No. 73 as it pulled out of the new yards. Approaching Calhoun street the double leaders slackened up and instantly, it would seem, twenty-five coupling pins were drawn and the train split up into pieces. The officers of the road were called, and with a switch engine in the rear the cars were shoved together, and the train sent out after an hour delay.

Master Transportation Walton was seen and treated the matter lightly, saying: "It's only the caper of a few boys." The Sentinel representative stood by when a hard-listed workman said to Yardmaster Craig: "You'd better not send that train out." This man was interviewed. "What will this strike amount to?" said the newspaper man. "Ah, they haven't sand enough to do anything. They pull a pin and run. If they just stand up here with me, I'll bet a farm we can stop any train out of here. The double-header racket won't work, though, and we propose to fight it."
